

## RoHS - Certificate of Compliance

RoHS Directive (2011/65/EU) aims to reduce risks to human health and the environment through the replacement of certain substances in electrical and electronic equipment through less hazardous alternatives or technologies. RoHS restricts the contents of these substances in electrical and electronic equipment.

**Substances covered by the RoHS directive are:**

- Mercury (Hg)
- Cadmium (Cd)
- Lead (Pb)
- Hexavalent chromium (Cr VI)
- The flame retardants PBB and PBDE
- Phthalates DEHP, BBP, DBP and DIBP (added through replacement of Annex II to 2011/65/EU according to 2015/863)

We hereby confirm that our products doesn't exceed the levels regulated in the RoHS Directive, concerning the substances listed above.
